DECLARATION

I have been involved in the retail store industry for 4 years.  
Currently, I am the Buyer for Wally Hecht's  
Dept store, and I am  
responsible for Towels

During my years in the retail store industry, I have become familiar with many towels and other textile products, and, in particular, beach towels.

As a result of my work experience, I am familiar with beach towels which have a round shape, and it is my belief and understanding that these beach towels having this particular configuration are manufactured by a single source.

It is my belief and understanding that the round shape of a beach towel has acquired in the retail store industry the ability to distinguish the CLM Design, Inc. (d/b/a Son International) brand beach towel from other beach towels.

75

23

Page Two  
Trademark Declaration  
CLM Design, Inc.  
(d/b/a Son International)

The overall visual impression of the configuration of a beach towel in a round shape identifies the CLM Design, Inc. (d/b/a Son International) brand beach towel, and it is my understanding and belief that it is unique since to my knowledge no competitive product has a similar shape or configuration.

The configuration of a round beach towel identifies the CLM Design, Inc. (d/b/a Son International) brand beach towel from a distance at which a normal person would be unable to read a label or name appearing on the beach towel.

It is my understanding and belief that any towel having the configuration of a round shape will come from the same source and would be of equal quality with other products from that same source.

responsible for overseeing the managers of  
seven stores, and a buyer.

During my years in the retail store industry, I have become familiar with many towels and other textile products, and, in particular, beach towels.

As a result of my work experience, I am familiar with beach towels which have a round shape, and it is my belief and understanding that these beach towels having this particular configuration are manufactured by a single source.

It is my belief and understanding that the round shape of a beach towel has acquired in the retail store industry the ability to distinguish the CLM Design, Inc. (d/b/a Son International) brand beach towel from other beach towels.

Trademark Declaration  
CLM Design, Inc.  
(d/b/a Son International)

The overall visual impression of the configuration of a beach towel in a round shape identifies the CLM Design, Inc. (d/b/a Son International) brand beach towel, and it is my understanding and belief that it is unique since to my knowledge no competitive product has a similar shape or configuration.

The configuration of a round beach towel identifies the CLM Design, Inc. (d/b/a Son International) brand beach towel from a distance at which a normal person would be unable to read a label or name appearing on the beach towel.

It is my understanding and belief that any towel having the configuration of a round shape will come from the same source and would be of equal quality with other products from that same source.
